**Please register by 4 pm 6/20/11 – call 856-5147 or online at [www.aqnetwork.org](http://www.aqnetwork.org)**

## SEMINAR

Learn how organizations may use an integrated electronic quality management system (QMS) to control documents and records, achieve tighter change management and improvement actions, while giving employees fully transparent access to information, procedures, and work instructions at point of use. A well structured QMS has proven to not only meet ISO requirements but facilitate integration with other quality and business models such as Baldrige and Lean/Six Sigma programs

## PRESENTER

Kevin Griffin worked for 25 year with Honeywell under contracts with NASA and the Defense Threat Reduction Agency. He has been a Quality Management Consultant and Facilitator since 2000. As a consultant he has served as Quality Management Systems Auditor for ASQ, teaches Lean/Six Sigma fundamentals for UNM Continuing Education, served for 8 years as Senior Examiner and Editor for the QNM Awards Program, and designs and facilitates a variety of workshops and seminars related to quality programs.
